

# Job Aid: Assigning a Designee to a Project Statement

## Contents:

## Overview:

Circumstances where a PI is unable to certify a project statement (for a reason such as terminated, extended leave, etc...) necessitate a designee assignment in ECC, so statements can be certified on their behalf. A person with suitable knowledge of the work performed over the course of the period can be added as the designee in these situations. This can be a department Dean/Director/Chair/Division Head.

If there is a new PI for a grant, and they should be the one certifying the project statements, this process can be used to allow them to certify temporarily. Long term, Workday should be updated to reflect the new PI, after which ECC's data will get updated too, and future project statements for that grant worktag will be associated with the new PI (contact GCA to request the PI to be updated). The existing designee assignment should be removed after the new PI is reflected as the PI in ECC.

**Designees must be added to project statements on an individual basis.** Meaning, if the PI who is unable to certify has multiple statements for a period, the following process will have to be done for each one of those statements.

## Adding a Designee – Search Bar Method:

1. Use the main search bar of ECC, and type in the GR number of the statement you want to add a designee to

2. From the "Account Summary" page that opens, select the "Manage Account Designee" subtab
