Computer Registration

For security purposes, you are guided through a quick registration process when you log in from any unregistered computer. Access to the email address associated with your profile is required to complete this process.

Certain common events may require you to register your computer, including:

- Using a new computer or one you have not used before.
- Switching to a new browser or browser settings.
- Clearing the browser cookies.
- Modifying your computer operating system or software settings.
- Changes to system settings made by your internet provider or I.T. administrator.

If you are using a public or shared computer, close all browsers and clear the cookies after you log out.

The final step is to register your computer
In order to register your computer, you need to request an **Access Code** by clicking on **Get Access Code**. The **Access Code** will be sent to the email that is on file in PaymentNet.
