UW UNIFORM GUIDANCE ADVISORY TEAM PRESENTS

LIVE NCURA WEBINAR: UNIFORM GUIDANCE

THE CHALLENGES OF IMPLEMENTATION IN HIGHER EDUCATION

We are half way through our first year with the Uniform Guidance. There was a flurry of activity as we tried to understand the new rules, make changes to our own policies, and educate faculty and staff about the new regulations. Now, it's time to check in with our colleagues. What have we accomplished? What was postponed? What about all those questions that still need answers? This webcast will look at the astonishing work universities have undertaken to meet the requirements of the UG. We will also look forward to the major issues that are still under discussion.
