

Q9 Example: SNAP Award Setup - Current State vs Future State Comparison

From May 19, 2023 Bonus UWFT-Focused MRAM

Current State:

- SNAP Award received funding year 1 (or 1st year of the competitive segment) and GCA sets up the Budget # for the entire segment.
- Future years of funding (years 2 – 5), would be processed as Supplement Funding Actions.

In Example: GCA would setup budget with current period of 1/1/2023 to 12/31/2027.

Future State:

- SNAP Award received funding year 1 (or 1st year of the competitive segment) and GCA would process the Award Setup Request (ASR) and setup an Award Line for the period being funded, aka the Budget Period.
- Future Periods of funding received (years 2 – 5) would be processed as Supplement & Extension MODs.

Impact:

- Would need to wait for non-competing continuation years of funding to supplement and extend the existing award line.
- May have delays in funding for non-competing years and could need a Temporary Budget Extension MOD to extend the award line.

In Example: GCA would setup award line with dates of 1/1/2023 to 12/31/2023.
