Follow up:

MAA has coordinated with the Financial Accounting team to define the nature of the required journal entries to clean up Service and Recharge Resource Worktags.

If you discover activity on your Service or Recharge Cost Center *other than*

- RS100073 Center Operations Resource,
- RS100075 External Center Surcharge Resource
- RS100076 Equipment Reserve Resource

You will need to submit a [General Finance Help Request](#) ticket to correct the activity.

If this activity represents several journal lines, please work with your Shared Environment to attach an [EIB](#) to your ticket. The Accounting Journal Entry EIB Template is attached to this email and can also be found in the EIB knowledge article linked above.

Please try to have this Resource activity cleaned up before the end of the calendar year.

Thank you

Hello Recharge Center Owners,

Please see snip below identifying unallowed Resource Worktag activity within the Service and Recharge Alternate Cost Center Hierarchy for FY2026. MAA continues to collaborate with the Financial Applications Management (FAM) team to update the Service and Recharge Custom Validation (CV) governing the use of Resource Worktags. As a reminder, only RS100073 Center Operations Resource, RS100075 External Center Surcharge Resource, and RS100076 Equipment Reserve Resource will be allowed in the future.

If you suspect your Cost Center is using one of the unallowed Resources, or leaving Resource blank, please utilize [UW Finance Cube](#) or the R1300 Actuals Summary with Statistics Account report in Workday to engage with your Shared Environment Accountant. Cleaning up this Resource activity now will save time and avoid errors in the future after the CV has been corrected. Please try to have this Resource activity cleaned up before the end of the calendar year.
