LTS

We are pleased to introduce Rainin's new tip rack and refill system.

Our tips haven't changed, but how we package them has. New features include:

- Hinged lid that also lifts off
- Latch to prevent spills – opens with one hand
- Multichannels now load from any angle
- Flow wrapping for superior protection
- Green-Pak® and SpaceSaver® refills are easier than ever
- Racks and refills use less plastic, for less waste

TerraRack®, StableRak™ and StableStak™ have not changed.

BioClean Ultra™

Proteomics researchers:
BioClean® is now BioClean Ultra –
we've expanded our quality testing
to include protein and protease.

* Please note that the new SpaceSaver product does not come with an extra rack any longer. If this is your first order of BioClean Ultra tips, you will need to purchase empty racks or racked tips in a matching size to start using this refill system.

** This product can be also used with UNV 10 µL ShaffGard™ tips.

Pipetting 360°

Your Performance Guarantee

Pipetting is a system: the pipette, the tip and periodic calibration

- Quality, performance and extraordinary comfort are why Rainin pipettes are industry leading.
- Rainin pipette shafts and tips are designed to work together, so they load smoothly and comfortably.
- For calibration or service, no one is more experienced or knowledgeable about your Rainin pipette than your Rainin or Mettler Toledo service technician.

Why risk your research with poor pipetting performance?
For your pipetting system, choose Rainin!
