## Out-of-State Vendors Charging WA Sales Tax

You may notice more vendors, especially out-of-state vendors, charging retail sales tax for items that previously did not have Washington state sales tax. This is due to new legislation (effective July 1, 2019) requiring businesses who exceed \$100,000 in retail sales to Washington customers in the current or previous year to register their business and collect/submit retail sales tax. When reconciling ProCard purchases, please take a moment to check invoices so that we do not add use tax to transactions where sales tax is charged. If you have any questions, do not hesitate to contact the Tax Office, [taxofc@uw.edu](mailto:taxofc@uw.edu).

**New [General Microsystems Inc. \(GMI\)](#) PunchOut Catalog is now Available in Ariba**

---

---

GMI is a local, certified Minority and Woman Owned business that has been providing technology products and services to the University of Washington since 1983. They are a full-service provider of IT infrastructure, security solutions, management tools, and professional services. They provide small and large project support in areas ranging from technology procurement or security assessments to staff augmentation. Offerings include: HP, Avaya, Palo Alto Networks, Varonis, Kingston, Oracle, Dell EMC, and hundreds of other technology products.

Due to their OMWBE certification, the GMI PunchOut is easy to locate in the Ariba Catalog right at the top under the OMWBE CERTIFIED DIVERSE SUPPLIERS category. In addition, GMI has provided a Help Guide on using the catalog, which is available on the PunchOut Catalog landing page under “\*Click here for Help Guide.” The guide is also posted on the Procurement Services Training Tutorials page in the Buying section.

For more information, contact Eric Kangas (206-412-2297) or David Sheehan (425-974-4838) or email [uw-orders@gmi.com](mailto:uw-orders@gmi.com) to discuss your technology needs.

### **New Webcast Training Series**

The UW Procurement Services Training Team is excited to present a new Webcast training series that will provide an in-depth look at a variety of topics.

#### **Starting in August:**

#### **Competitive Solicitations & Sole Source Justifications**

#### **Ariba Basics Overview**

#### **Coming Soon:**

#### **Finding/Using/Not Signing Contracts**

#### **Supplier Onboarding**

#### **Reports**

The training topics are the result of campus feedback we gathered in May.

Each webcast will be an hour in length, with a half hour devoted to Q & A. Every webcast in the series will be recorded and posted to the Procurement Services website after the event date for those who were not able to participate. To learn more, click <https://finance.uw.edu/ps/resources/training-and-tutorials/ariba>

### **What's the Status of your Supplier?**

You can check the status of your supplier by using the Supplier Search report. The Supplier Search report is in the Business Intelligence Portal (B.I. Portal) which requires an ASTRA authorization for the Enterprise Data Warehouse (EDW). Please visit the [Procurement Desktop Reports \(PDR\)](#) webpage for more information and link to the Supplier Search report. There is also a Supplier Search Guide under the Tutorials & Guides section.

### **Dear PCS,**

My deliveries seem to take longer to get to me than others in my group. Can you help me?

### **Dear Deliver To,**

We recommend in the Deliver To section that you enter the Room number first, followed by Name, in the Shipping section of your Catalog or Non-Catalog requisition or your Contract Request. It is important

---

---

to have the room number first because space is limited and the Deliver To information is used to print the shipping label.

**Dear PCS,**

Should I add a line item for Sales Tax when I create orders in Ariba?

**Dear Sales Tax,**

When you place orders in Ariba (Catalog Orders, Non-Catalog Orders, and BPOs), **DO NOT** add a line item for sales tax. The sales tax will be processed as a header charge when the suppliers invoice for the orders.

**Dear PCS,**

I saw that I was given the Enhanced Accessibility role in ASTRA. What does this role do?

**Dear Enhanced Accessibility Role,**

The Enhanced Accessibility role is to assist individuals with visual impairment to navigate ARIBA but does change some ARIBA functionality. If you do not need the visual enhancements, your ASTRA authorizer can remove the ASTRA role.
