Quick Q&A:

Q: How can a guest see how much they've earned?

A: A guest can track their business commuter bonus the same place they'd track other status points earns; within their Atmos account online or in the Alaska mobile app. It will show up as line item "Commuter 50% Status Points."

Q: How long until the guest can see their status points?

A: Bonus points should be credited to the guests' Atmos account following the flight, posted at the same time their traditional/base earns are posted.

Q: Does a guest have to be an Atmos Rewards member to enroll?

A: Yes, guests must be Atmos members.

Q: Do guests have to register every time they take a Seattle flight?

A: No! Once they enroll the first time, it should recognize each flight they take in to or out of Seattle until 4/30/26.

Q: Do Hawaiian Airlines flights count towards the promotion? Do Horizon?

A: This offer is valid on flights marketed by Alaska Airlines and operated by Alaska Airlines, Hawaiian Airlines, Horizon Air, or SkyWest Airlines, and with an origin or destination of Seattle-Tacoma International Airport (SEA).

Q: How will we count promo status points on connecting flights? Example: If a guest books SAN - SEA but the only option is a stop in SFO, would they only get the 50% bonus points on the SFO - SEA leg?

A: If there's a connection, it will depend if it's a direct flight or not. If it's direct (the flight # remains the same) we would award the points for SAN-SEA. If the connecting flight is a separate segment entirely (the flight # changes), they would get the status points for SFO-SEA only.
