**Absolute Return.** Low correlation and low beta equities and credit

**Asset Allocation.** Diversification of endowment assets among various asset classes. Asset allocation affects both risk and return and is a central concept in investment management.

**Asset Classes.** Including, but not limited to, developed markets equity, emerging markets equity, private equity, real assets, opportunistic, absolute return and fixed income.

**Capital Appreciation.** Provides the capital growth that will enable the CEF to meet its spending requirements, while at the same time preserving the purchasing power of the CEF for future generations.

**Capital Preservation.** Provides liquidity in support of spending and capital commitments; a deflation hedge; and reduces the overall volatility of the CEF.

**Equity.** Investments where the underlying asset is the ownership interest in a company.

**Fixed Income.** Government, corporate or municipal bonds which pay interest until the bonds mature, including cash and short term liquid assets (e.g., Treasury bills, commercial paper and nonconvertible bonds with remaining maturities of under one year).

**Opportunistic.** Diversify risk-return profile of the CEF, often with credit instruments.

**Real Assets.** Investments in real estate, natural resources and inflation protection vehicles.

**Spending.** Amount withdrawn from an endowment as authorized by the Board of Regents.

**Spending Policy.** Guidelines used to determine the frequency and rate of distributions from the endowment.

**Return.** The accepted method of measuring the performance of equity and bond funds; the combination of income (interest and dividends) and appreciation/depreciation in the fund’s value for a specified period of time.
